

## PARTS 32 AND 64 STREAMLINING

~~report. The audit shall be conducted in accordance with generally accepted auditing standards, except as otherwise directed by the Chief Common Carrier Bureau.~~

~~(b) The report of the independent auditor shall be filed at the time that the local exchange carrier files the annual report required by §43.21(e)(2) of this chapter.~~

### Attachment 13

Rules Change: Modify 64.901(b) to replace the existing cost allocation methodology with a fixed factor methodology using the last ARMIS 43-03 report filed before the rules change became effective.

(b) In assigning or allocating costs to regulated and nonregulated activities, carriers shall follow the principles described herein:

(1) Tariffed services provided to a nonregulated activity will be charged to the nonregulated activity at the tariffed rates and credited to the regulated revenue account for that service.

~~(2) Costs shall be directly assigned to either regulated or nonregulated activities whenever possible. Carriers may have, but are not required to have, more than one cost category for each Class B Account. Fixed factors used to allocate common costs must be appropriately tied to the 19xx ARMIS 43-03 Report or to its supporting data.~~

~~(3) Costs which cannot be directly assigned to either regulated or nonregulated activities will be described as common costs. Common costs shall be grouped into homogenous cost categories designed to facilitate the proper allocation of costs between a carrier's regulated and nonregulated activities. Each cost category shall be allocated between regulated and nonregulated activities in accordance with the following hierarchy:~~

~~(i) Whenever possible, common costs are to be allocated based upon direct analysis of the origin of the costs themselves.~~

~~(ii) When direct analysis is not possible, common cost categories shall be allocated based upon an indirect, cost-causative linkage to another cost category (or group of cost categories) for which a direct assignment or allocation is available.~~

~~(iii) When neither direct nor indirect measures of cost allocation can be found, the cost category shall be allocated based upon a general allocator computed by using the ratio of all expenses directly assigned or attributed to regulated and nonregulated activities.~~

~~(4) The allocation of central office equipment and outside plant investment costs between regulated and nonregulated activities shall be based upon the relative regulated and nonregulated usage of the investment during the calendar year when nonregulated usage is greatest in comparison to its regulated usage during the three calendar years beginning with the calendar year during which the investment usage forecast is filed.~~

Rules Change: Modify 64.903(a)(5) and (6) to replace existing cost allocation methodology with a fixed factor methodology.

~~(5) A cost apportionment table showing, for each account containing costs incurred in providing regulated services, the cost pools with that account, the procedures used to place costs into each cost pool, and the method used to apportion the costs within each cost pool between regulated and nonregulated activities; and the associated fixed factors; and~~

~~(6) A description of the time reporting procedures that the carrier uses, for companies electing to directly assign certain costs. Including the methods or studies designed to measure and allocate non-productive time.~~

## Subpart A - Preface

### § 32.1 Background.

The revised Uniform System of Accounts (USOA) is a ~~historical~~ financial accounting *structure* ~~system which reports the results of operational and financial events in a manner which intended to~~ enables both management and regulators to assess ~~these~~ *financial* results within a specified accounting period. ~~The USOA also provides the financial community and others with financial performance results. In order for an accounting system to fulfill these purposes, it must exhibit consistency and stability in financial reporting (including the results published for regulatory purposes). Accordingly, the USOA has generally been designed to reflect stable, recurring financial data based to the extent regulatory considerations permit upon the~~ *be* consistency *with* of the well established body of accounting theories and principles commonly referred to as generally accepted accounting principles (*GAAP*).

### § 32.2 Basis of the accounts.

(a) The financial accounts of a company are used to record, ~~in monetary terms, the basic financial transactions which occur. Certain natural groupings of~~ (These transactions *can be grouped by* ~~are called (in different contexts) transaction cycles, business processes, or functions or activities and by time period. The concept, however, is the same in each case; i.e., the natural groupings represented what happens within the company on a consistent and continuing basis. This repetitive nature of the natural groupings, over long periods of time, lends an element of stability to the financial account structure.~~

(b) Within the telecommunications industry companies, certain recurring functions (natural groupings) do take place in the course of providing products and services to customers. These accounts reflect, to the extent feasible, those functions. For example, the primary bases of the accounts containing the investment in telecommunications plant are the functions performed by the assets. ~~In addition, because of the anticipated effects of future innovations, the telecommunications plant accounts are intended to permit technological distinctions. Similarly, the primary bases of plant operations, customer operations and corporate operations expense accounts are the functions performed by individuals. The revenue accounts, on the other hand, reflect a market perspective of natural groupings based primarily upon the products and services purchased by customers.~~

(c) ~~In the course of developing the bases for this account structure, several other alternatives were explored. It was, for example, determined that because of the variety and continual changing of various costs allocation mechanisms, the financial accounts of a company should not reflect an a priori allocation of revenues, investments or expenses to products or services, jurisdictions or organizational structures. (Note also § 32.14 (c) and (d) of Subpart B). It was also determined that costs (in the case of assets) should not be recorded based solely upon physical attributes such as location, description or size.~~

~~(d) Care has been taken in this account structure to avoid confusing a function with an organizational responsibility, particularly as it related to the expense accounts. Whereas in the past specific organizations may have performed specific functions, the future environment with its increasing mechanization and other changes will result in entirely new or restructured organizations. Thus, any relationships drawn between organizations and accounts would become increasingly meaningless with the passage of time.~~

(e) These accounts, then, are intended to reflect a functional and technological view of the telecommunications industry. This view will provide a stable and consistent foundation for the recording of financial data.

(f) The financial data contained in the accounts, together with the detailed information contained in the underlying financial and ~~other~~ subsidiary records required by *GAAP, tax purposes and internal business requirements* ~~this Commission~~, will provide the information necessary to support separations, costs of service and management reporting requirements. ~~The basic account structure has been designed to remain stable as reporting requirements change.~~

### § 32.3 Authority.

This Uniform System of Accounts has been prepared under the following authority: Section 4 of the Communications Act of 1934, as amended, 47 U.S.C. Section 154 (1984); *Sections 401, 402 of the Telecommunications Act of 1996*. Sections 219, 220 of the Communications Act of 1934, as amended, 47 U.S.C. Sections 219, 220 (1984).

### § 32.4 Communications Act.

Attention is directed to the following extract from Section 220 of the Communications Act of 1934, 47 U.S.C. § 220 (1984):

(e) Any person who shall willfully make any false entry in the accounts of any book of accounts or in any record or memoranda kept by any such carrier, or who shall willfully destroy, mutilate, alter, or by any other means or device falsify any such account, or memoranda, or who shall willfully neglect or fail to make full, true, and correct entries in such accounts, records, or memoranda of all facts and transactions appertaining to the business of the carrier, shall be deemed guilty of a misdemeanor, and shall be subject, upon conviction, to a fine of not less the \$1,000 nor more than \$5,000 or imprisonment for a term of not less than one year nor more than three years, or both such fine and imprisonment: Provided, that the Commission may in its discretion issue orders specifying such operating, accounting or financial papers, records, books, blanks, or documents which may after a reasonable time, be destroyed, and prescribing the length of time such books, papers, or documents shall be preserved.

For regulations governing the periods for which records are to be retained, see Part 42, Preservation of Records of Communications Common Carriers, of this chapter which relates to preservation of records.

## Subpart B - General Instructions

~~§ 32.11 Classification of companies. [Reserved]~~~~\_\_\_\_\_ (a) For accounting purposes, companies are divided into classes as follows:~~~~\_\_\_\_\_ Class A. Companies having annual revenues from regulated telecommunications operations of \$100,000,000 or more.~~~~\_\_\_\_\_ Class B. Companies having annual revenues from regulated telecommunications operations of less than \$100,000,000.~~~~\_\_\_\_\_ (b) Class A companies shall keep all the accounts of this system of accounts which are applicable to their affairs and are designated as Class A accounts. COMPANIES NOT SUBJECT TO SECTION 32.2(g) shall also keep Basic Property Records in compliance with the requirements of § 32.2000(e) and (f) of Subpart C.~~~~\_\_\_\_\_ (c) Class B companies shall keep all the accounts of this system of accounts which are applicable to their affairs and are designated as Class B accounts. COMPANIES NOT SUBJECT TO SECTION 32.2(g) shall also keep Continuing Property Records in compliance with the requirements of §§ 32.2000(e)(7)(A) and 32.2000 (f) of Subpart C.~~~~\_\_\_\_\_ (d) Class B companies that desire more detailed accounting may adopt the accounts prescribed for Class A companies upon the submission of a written notification to the Commission.~~~~\_\_\_\_\_ (e) The initial classification of a company shall be determined by its lowest annual operating revenues for the five immediately preceding years. Subsequent changes in classification shall be made when the annual operating revenues show a greater or lesser classification for five consecutive years. Companies becoming subject to the jurisdiction of the Commission and not having revenue data for the five immediately preceding years shall estimate the amount of their annual revenues and adopt the scheme of accounts appropriate for the amount of such estimated revenues.~~

## § 32.12 Records.

(a) The company's financial records shall be kept in accordance with generally accepted accounting principles to the extent permitted by this system of accounts.

(b) The company's financial records shall be kept with sufficient particularity to show fully the facts pertaining to all entries in these accounts. The detail records shall be **filed maintained** in such manner as **required under GAAP** to be readily accessible for examination by representatives of this Commission **and retained according to Part 42 of the Commission's rules.**

(c) ~~The Commission shall require a company to maintain financial and other subsidiary records in such manner that specific information, of a type not warranting disclosure as an account or subaccount, will be readily available. When this occurs, or where the full information is not otherwise recorded in the general books, the subsidiary records shall be maintained in sufficient detail to facilitate the reporting of the required specific information. The subsidiary records, in which the full details are shown, shall be sufficiently referenced to permit ready identification and examination by representatives of this Commission.~~

## § 32.13 Accounts - General.

(a) As a general rule, all accounts kept by reporting companies shall conform in numbers and titles to those prescribed herein. However, reporting companies may use different numbers for internal purposes when separate accounts (or subaccounts) maintained are consistent with the title and content of accounts and subaccounts prescribed in this system.

~~(1) For Class A reporting companies, accounts which are clearly summaries of other accounts or subaccounts are to be used for reporting purposes and are not otherwise required to be maintained.~~

(2) A company may subdivide any of the accounts prescribed. The titles of all such subaccounts shall refer by number or title to the controlling account.

~~(3) A company may establish temporary or experimental accounts provided that within 30 days of the opening of such accounts the company notifies the Commission of the nature and purpose thereof.~~

(b) Exercise of the preceding options shall be allowed only if the integrity of the prescribed accounts is not impaired.

(c) As of the date a company becomes subject to this system of accounts, the company is authorized to make any such subdivisions, reclassifications or consolidations of existing balances as are necessary to meet the requirements of this system of accounts.

(d) Nothing contained in this Part shall prohibit or excuse any company, receiver, or operating trustee of any carrier from subdividing the accounts hereby prescribed for the purpose of:

(1) Complying with the requirements of the state commission(s) having jurisdiction;

or

(2) Securing the information required in the prescribed reports to such commission(s).

or

*(3) Complying with GAAP Requirements*

or

*(4) Complying with Federal, State and Local Tax Requirements*

~~(e) Where the use of subsidiary records will be maintained as needed is considered necessary in order to secure the information required in reports to any state commission, the company shall incorporate the following controls into their accounting system with respect to such subsidiary records.~~

~~(1) Subsidiary records shall be reconciled to the company's general ledger or books of original entry, as appropriate.~~

~~(2) The company shall adequately document the accounting procedures related to subsidiary records.~~

~~(3) The subsidiary records shall be maintained at an adequate level of detail to satisfy state regulators.~~

## § 32.14 Regulated accounts.

(a) In the context of this part, the regulated accounts shall be interpreted to include the investments, revenues and expenses associated with those telecommunications products and services to which the tariff filing requirements contained in Title II of the Communications Act of 1934, as amended, are applied, except as may be otherwise provided by the Commission. Regulated telecommunications products and services are thereby fully subject to the accounting requirements as specified in Title II of The Communications Act of 1934, as amended and as detailed in Subpart A through F of this Part of the Commission's rules and Regulations.

(b) In addition to those amounts considered to be regulated by the provisions of (a) above, those telecommunications products and services to which the tariff filing requirements of the several state jurisdictions are applied shall be accounted for as regulated, except where such treatment is proscribed or otherwise excluded from the requirements pertaining to regulated telecommunications products and services by this Commission.

(c) In the application of the detailed accounting requirements contained in this part, when a regulated activity involves the common or joint use of assets and resources in the provision of regulated and nonregulated products and services, companies shall account for these activities within the accounts prescribed in this system for telephone company operations. ~~Assets and expenses shall be subdivided in subsidiary records among amounts solely assignable to nonregulated activities, amounts solely assignable to regulated activities, and amounts related to assets used and expenses incurred jointly or in common, which will be allocated between regulated and nonregulated activities.~~ Companies shall submit reports identifying regulated and nonregulated amounts in the manner and at the times prescribed by this Commission. Nonregulated revenue items not qualifying for incidental treatment, as provided in § 32.4999(i) shall be recorded in Account 5280, Nonregulated operating revenue.

(d) Other income items which are incidental to the provision of regulated products and services shall be accounted for as regulated activities.

(e) All costs and revenues related to the offering of regulated products and services which result from arrangements for joint participation or apportionment between two or more telephone companies (e.g., joint operating agreements, settlement agreements, cost-pooling agreements,) shall be recorded within the detailed regulated accounts. Under joint operating agreements, the creditor will initially charge the entire expenses to the appropriate primary accounts. The proportion of such expenses borne by the debtor shall be credited by the creditor and charged by the debtor to the account initially charged. Any allowances for return on property used will be accounted for as provided in Account 5240, Rent Revenue.

(f) All items of nonregulated revenue, investment and expense that are not properly includable in the detailed, regulated accounts prescribed in Subparts A through F of this Part, as determined by paragraphs (a) through (e) of this section shall be accounted for and included in reports to this Commission as specified in § 32.23 of this subpart.

## § 32.15 [Reserved]

§ 32.16 Changes in accounting standards.

(a) The company's records and accounts shall be adjusted to apply new accounting standards prescribed by the Financial Accounting Standards Board or successor authoritative accounting standard-setting groups, in a manner consistent with generally accepted accounting principles. ~~Commission approval of a change in accounting standard will automatically take effect 90 days after the company informs this Commission of its intention to follow the new standard, unless the Commission notifies the company to the contrary. Concurrent with informing this Commission of its intent to adopt an accounting standards change, the company shall also file a revenue requirement study for the current year and a projection for three years into the future analyzing the effects of the accounting standards change. Furthermore, any change subsequently adopted shall be disclosed in annual reports to this Commission. Companies are required to notify the Commission of new accounting standards that will not be adopted on a USOA basis.~~

(b) The changes in accounting standards which ~~this Commission approves~~ *the carriers adopt* will not necessarily be binding on the ratemaking practices of the various state commission.

32.17 Interpretation of accounts.

To the end that uniform accounting shall be maintained within the prescribed system, questions involving matters of significance which are not clearly provided for shall be submitted to the Chief, Common Carrier Bureau, for explanation, interpretation, or resolution. Questions and answers thereto with respect to this system of accounts will be maintained by the Common Carrier Bureau.

§ 32.18 Waivers.

A waiver from any provision of this system of accounts shall be made by the Federal Communications Commission upon its own initiative or upon the submission of written request therefor from any telecommunications company, or group of telecommunications companies, provided that such a waiver is in the public interest and each request for waiver expressly demonstrates that: existing peculiarities or unusual circumstances warrant a departure from a prescribed procedure or technique; a specifically defined alternative procedure or technique will result in a substantially equivalent or more accurate portrayal of operating results or financial condition, consistent with the principles embodied in the provisions of this system of accounts, and the application of such alternative procedure will maintain or improve uniformity in substantive results as among telecommunication companies.

§ 32.19 Address for reports and correspondence.

Reports, statements, and correspondence submitted to the Federal Communications Commission in accordance with or relating to instructions and requirements contained herein shall be addressed to the Common Carrier Bureau, Federal Communications Commission, Washington, D.C., 20554.

32.20 Numbering convention.

(a) The number "32" (appearing to the left of the first decimal point) indicates the part number.

(b) The numbers immediately following to the right of the decimal point indicate, respectively, the section or account. All Part 32 Account numbers contain 4 digits to the right of the decimal point.

(c) Cross references to accounts are made by citing the account numbers to-the-right-of the decimal point; e.g., Account ~~2232~~ 2230 rather than the corresponding complete Part 32 reference number ~~32.2232~~ 32.2230.

§ 32.21 Sequence of accounts.

The order in which the accounts are presented in this system of accounts is not to be considered as necessarily indicative of the order in which they will be scheduled at all times in reports to this Commission.

§ 32.22 Comprehensive interperiod tax allocation.

(a) Companies shall apply interperiod tax allocation (tax normalization) to all book/tax temporary differences which would be considered material for published financial report purposes. Furthermore, companies shall also apply interperiod tax allocation if any item or group of similar items when aggregated would yield debit or credit entries which exceed or would exceed 5 percent of the gross deferred income tax expense debits or credits during any calendar year over the life of the temporary difference. The tax effects of book/tax temporary differences shall be normalized and the deferrals shall be included in the following accounts:

- 4100 Net Current Deferred Operating Income Taxes;
- 4110 Net Current Deferred Nonoperating Income Taxes;
- 4340 Net Noncurrent Deferred Operating Income Taxes;
- 4350 Net Noncurrent Deferred Nonoperating Income Taxes.

In lieu of the accounting prescribed herein, any company shall treat the increase or reduction in current income taxes payable resulting from the use of flow through accounting in prior years as an increase or reduction in current tax expense.

(b) ~~Supporting documentation shall be maintained so as to separately identify~~ *The amount of deferred taxes which arise from the use of an accelerated method of depreciation shall be separately identified.*

(c) ~~Subsidiary records shall be used to reduce~~ *The deferred tax assets contained in the accounts specified in paragraph (a) shall be reduced* when it is likely that some portion or all of the deferred tax asset will not be realized. The amount ~~recorded in the subsidiary record~~ should be sufficient to reduce the deferred tax asset to the amount that is likely to be realized.

(d) ~~The records supporting the activity in the deferred income tax accounts shall be maintained in sufficient detail to identify~~ *The nature of the specific temporary differences giving rise to both the debits and credits to the individual accounts shall be identified.*

(e) Any company that uses accelerated depreciation (or recognizes taxable income or losses upon the retirement of property) for income tax purposes shall normalize the tax differentials occasioned thereby as indicated in paragraphs (e)(1) and (e)(2) of this section.

- (1) With respect to the retirement of property the book/tax difference between

- (i) the recognition of proceeds as income and the accrual for salvage value and
- (ii) the book and tax capital recovery, shall be normalized .

(2) Records shall be maintained so as to show the deferred tax amounts by vintage year separately for each class or subclass of eligible depreciable telephone plant for which an accelerated method of depreciation has been used for income tax purposes. When property is transferred to nonregulated activities, the associated deferred income taxes and unamortized investment tax credits shall also be identified and transferred to the appropriate nonregulated accounts.

(f) The tax differentials to be normalized as specified in this section shall also encompass the additional effect of state and local income tax changes on Federal income taxes produced by the provision for deferred state and local income taxes for book/tax temporary differences related to such income taxes.

(g) Companies that receive the tax benefits from the filing of a consolidated income tax return by the parent company, (pursuant to closing agreements with the Internal Revenue Service, effective January 1, 1966) representing the deferred income taxes from the elimination of intercompany profits for income tax purposes on sales of regulated equipment, may credit such deferred taxes directly to the plant account which contains such intercompany profit rather than crediting such deferred taxes to the applicable accounts in paragraph (a) of this section. If the deferred income taxes are recorded as a reduction of the appropriate plant accounts, such reduction shall be treated as reducing the original cost of the plant and accounted for as such.

#### § 32.23 Nonregulated activities.

(a) This section describes the accounting treatment of activities classified for accounting purposes as "nonregulated." Preemptively deregulated activities and activities (other than incidental *or de minimis* activities) never subject to regulation will be classified for accounting purposes as "nonregulated." Activities that qualify for incidental treatment under the policies of this Commission will be classified for accounting purposes as regulated activities. *Tariffed activities and a* Activities that have been deregulated by a state will be classified for accounting purposes as regulated activities. Activities that have been deregulated at the interstate level, but not preemptively deregulated, will be classified for accounting purpose as regulated activities until such time as this Commission decides otherwise. The treatment of nonregulated activities shall differ depending on the extent of the common or joint use of assets and resources in the provision of both regulated and nonregulated products and services.

(b) When a nonregulated activity does not involve the joint or common use of assets and resources in the provision of both regulated and nonregulated products and services, carriers shall account for these activities on a separate set of books consistent with instructions set forth in §§ 32.1406 and 32.7990. Transfer of assets and sales of products and services between the regulated activity and a nonregulated activity for which a separate set of books is maintained, shall be accounted for in accordance with the rules presented in § 32.27, Transactions with Affiliates. In the separate set of books, carriers may establish whatever detail they deem appropriate beyond what is necessary to provide this Commission with the information required in §§ 32.1406 and 32.7990.

(c) When a nonregulated activity does involve the common or joint use of assets and resources in the provision of regulated and nonregulated products and services, carriers shall account for these activities within accounts prescribed in this system for telephone company operations. ~~Assets and expenses shall be subdivided in subsidiary records among amounts solely assignable to nonregulated activities, amounts solely assignable to regulated activities, and amounts related to assets and expenses incurred jointly or in common, which will be allocated between regulated and nonregulated activities.~~ Carriers shall submit reports identifying regulated and nonregulated amounts in the manner and at the times prescribed by this Commission. Nonregulated revenue items not qualifying for incidental treatment, as provided in § 32.4999(i) shall be recorded in ~~separate subsidiary record categories of~~ Account 5280, Nonregulated operating revenue. Amounts assigned or allocated to regulated products or services shall be subject to part 36 of this chapter.

§ 32.24 Compensated absences.

(a) Companies shall record a liability and charge the appropriate expense accounts for compensated absences (vacations, sick leave, etc.) in the year in which these benefits are earned by employees.

(b) With respect to the liability that exists for compensated absences which is not yet recorded on the books as of the effective date of this Part, the liability shall be recorded in Account 4120, Other Accrued Liabilities, with a corresponding entry to Account 1439, Deferred Charges. This deferred charge shall be amortized on a straight line basis over a period of ten years.

(c) Records shall be maintained so as to show that no more than ten percent of the deferred charge is being amortized each year.

§ 32.25 Unusual items and contingent liabilities.

Extraordinary items, prior period adjustments and contingent liabilities shall be ~~submitted to this Commission for review before being recorded in the company's books of account in accordance with the requirements of GAAP. The materiality of corrections of errors in prior periods shall be measured in relation to the summary account level used for reporting purposes for Class A carriers, or in relation to total operating revenues or total operating expenses for Class B carriers. For Class A carriers, no correction in excess of one percent of the aggregate summary account dollars or one million dollars, whichever is higher, may be recorded in current operating accounts without prior approval. For Class B carriers, no correction which exceeds one percent of total operating revenues or one percent of total operating expenses, depending on the nature of the item, may be recorded in current operating accounts without prior approval.~~

§ 32.26 Materiality.

Companies shall follow this system of accounts in recording all financial and statistical data. *When errors occur or better estimates become available, corrections should be made based on the*

~~GAAP criteria of materiality irrespective of an individual items materiality under GAAP, unless a waiver has been granted under the provisions of § 32.18 of this subpart to do otherwise.~~

§ 32.27 Transactions with affiliates.

(a) Unless otherwise approved by the Chief, Common Carrier Bureau, transactions with affiliates involving asset transfers into or out of the regulated accounts shall be recorded by the carrier in its regulated accounts as provided in paragraphs (b) through (f) of this section.

(b) Assets sold or transferred between a carrier and its affiliate pursuant to a tariff, including a tariff filed with a state commission, shall be recorded in the appropriate revenue accounts at the tariffed rate. Non-tariffed assets sold or transferred between a carrier and its affiliate that qualify for prevailing price valuation, as defined in part (d) below, shall be recorded at the prevailing price. For all other assets sold by or transferred from a carrier to its affiliate, ~~the assets shall be recorded at the higher of fair market value and net book cost. For all other assets or~~ purchased by or transferred to a carrier from its affiliate, the assets shall be recorded at the lower of fair market value and seller's net book cost. ~~For purposes of this section carriers are required to make a good faith determination of fair market value.~~

(c) Services provided between a carrier and its affiliate pursuant to a tariff, including a tariff filed with a state commission, shall be recorded in the appropriate revenue accounts at the tariffed rate. Non-tariffed services provided between a carrier and its affiliate pursuant to publicly-filed agreements submitted to a state commission pursuant to section 252(e) of the communications Act of 1934 or statements of generally available terms pursuant to section 252(f) shall be recorded using the charges appearing in such publicly-filed agreements or statements. Non-tariffed services provided between a carrier and its affiliate that qualify for prevailing price valuation, as defined in part (d) below, shall be recorded at the prevailing price. For all other services provided by a carrier to its affiliate, ~~the services shall be recorded at the higher of fair market value and fully distributed cost. For all other services or~~ received by a carrier from its affiliate, the service shall be recorded at the lower of fair market value and seller's fully distributed cost, ~~except that services received by a carrier from its affiliate or provided by a carrier to its affiliate when such affiliate {that} exists solely to provide services to members of the carrier's corporate family shall be recorded at fully distributed cost. For purposes of this section carriers are required to make a good faith determination of fair market value.~~

(d) In order to qualify for prevailing price valuation in sections (b) and (c) of this rule, sales of a particular asset or service to third parties must encompass greater than 50 percent of the total quantity of such product or service sold by an entity. Carriers shall apply this 50 percent threshold on a asset-by-asset and service-by-service basis, rather than on a product line or service line basis. In the case of transactions for assets and services subject to section 272, a BOC may record such transactions at prevailing price regardless of whether the 50 percent threshold has been satisfied. ***In the case of nonregulated activities, a BOC may also record transactions at prevailing price regardless of whether the 50 percent threshold has been satisfied.***

(e) Income taxes shall be allocated among the regulated activities of the carrier, its nonregulated divisions, and members of an affiliated group. Under circumstances in which income taxes are determined on a consolidated basis by the carrier and other members of the affiliated group, the income tax expense to be recorded by the carrier shall be the same as would result if determined for the carrier separately for all time periods, except that the tax effect of carry-back and carry-forward operating losses, investment tax credits, or other tax credits generated by operations of the carrier shall be recorded by the carrier during the period in which applied in settlement of the taxes otherwise attributable to any member, or combination of member, of the affiliated group.

(f) Companies that employ average schedules in lieu of actual costs are exempt from the provisions of this section. For other organizations, the principles set forth in this section shall apply equally to corporations, proprietorships, partnerships and other forms of business organizations.

Subpart C - Instructions for Balance Sheet Accounts

§ 32.101 Structure of the balance sheet accounts.

The Balance Sheet accounts shall be maintained as follows:

Account 1120, Cash and Equivalents, through Account ~~1500, Other Jurisdictional Assets Net, 1439, Deferred Charges~~ shall include assets other than regulated-fixed assets.

Account 2001, Telecommunications Plant in Service, through Account 2007, Goodwill, shall include the regulated fixed assets.

Account 3100, Accumulated Depreciation, through Account 3600, Accumulated Amortization-Other, shall include the asset and deferred tax reserves.

Account 4010, Accounts Payable, through Account 4550, Retained Earnings, shall include all liabilities and stockholders equity.

§ 32.102 Nonregulated investments.

Nonregulated investments shall include the investment in nonregulated activities that are conducted through the same legal entity as the telephone company operations, but do not involve the joint or common use of assets or resources in the provision of both regulated and nonregulated products and services. See §§ 32.14 and 32.23.

This account shall include the amount of all noncurrent assets which are not includable in Accounts 1401 through 1408.

## § 32.1437 Deferred Tax Regulatory Asset.

(a) This account shall include amounts of probable future *net increases in revenues for the recovery of future increases in taxes payable. (future revenue increases in excess of future revenue decreases) attributable to:*

*1) future net increases to taxes payable related to the tax effects of temporary differences accounted for under the flow-through method (future increases in excess of future decreases).*

*2) the impact of tax rate increases in excess of tax rate decreases on net deferred tax liabilities (deferred tax liabilities in excess of deferred tax assets) for those temporary differences underlying its existing balance.*

*3) the impact of tax rate decreases in excess of tax rate increases on net deferred tax assets (deferred tax assets in excess of deferred tax liabilities) for those temporary differences underlying its existing balance.*

As *net increases in revenue reversals* occur, amounts recorded in this account shall be reduced with a credit entry and a debit entry to Account 4341, ~~Net Deferred Tax Liability Adjustments~~, 4340, *Net Noncurrent Deferred Operating Income Taxes*.

(b) This account shall also be adjusted for the impact of prospective tax rate changes on the deferred tax liability for those temporary differences underlying its existing balance. If the cumulative effect of such adjustments reduce the account to a net credit balance, such balance shall be reclassified to Account 4361.

## § 32.1438 Deferred maintenance and retirements.

(a) This account shall include such items as the unprovided-for loss in service value of telecommunications plant for extraordinary non-recurring retirement not considered in depreciation and the cost of extensive replacements of plant normally chargeable to the current period Plant Specific Operations Expense accounts.

(b) Charges provided for in paragraph (a) above shall be included in this account only upon direction or approval from this Commission. However, the company's application to this Commission for such approval shall give full particulars concerning the property retired, the extensive replacements, the amounts chargeable to operating expenses and the period over which in its judgement the amount of such charges should be distributed.

## § 32.1439 Deferred charges.

(a) This account shall include all deferred charges not provided for in Accounts 1438, Deferred Maintenance and Retirements, and 1500, ~~Other Jurisdictional Assets Not~~. Such charges include unaudited amounts and other debit balances in suspense that cannot be cleared and disposed of until additional information is received; the amount, pending determination of loss, of funds on deposit with

banks which have failed; revenue, expense, and income items held in suspense; amounts paid for options pending final disposition.

(b) This account shall include the cost of preliminary surveys, plans, investigation, etc., made for construction projects under contemplation. If the projects are carried out, the preliminary costs shall be included in the cost of the plant constructed. If the projects are abandoned, the preliminary costs shall be charged to Account ~~7370, Special Charges~~ **7300, Nonoperating Income and Expense**.

(c) This account shall include also the cost of valuations, inventories, and appraisals taken in connection with the acquisition or sale of property. If the property is subsequently acquired, the preliminary costs shall be accounted for as part of the cost of acquisition, or if it is sold, such costs shall be deducted from the sale price in accounting for the property sold. If purchases or sales are abandoned, the preliminary costs included herein (including options paid, if any) shall be charged to Account ~~7370~~ **7300, Nonoperating Income and Expense**.

~~§ 32.1500 Other jurisdictional assets - Net.~~

~~This account shall include the cumulative impact on assets of jurisdictional ratemaking practices which vary from those of this Commission. All entries recorded in this account shall be recorded net of any applicable income tax effects and shall be supported by subsidiary records where necessary as provided for in § 32.13(e) of Subpart B.~~

§ 32.2000 Instructions for telecommunications plant accounts.

(a) Purpose of telecommunications plant accounts.

(1) The telecommunications plant accounts (2001 to 2007 inclusive) are designed to show the investment in the company's tangible and intangible telecommunications plant which ordinarily has a service life of more than one year, including such plant whether used by the company or others in providing telecommunications service.

(2) The telecommunications plant accounts shall not include the cost or other value of telecommunications plant contributed to the company. Contributions in the form of money or its equivalent toward the construction of telecommunications plant shall be credited to the accounts charged with the cost of such construction. Amounts of non-recurring reimbursements based on the cost of plant or equipment furnished in rendering service to a customer shall be credited to the accounts charged with the cost of the plant or equipment. Amounts received for construction which are ultimately to be repaid wholly or in part, shall be credited to Account 4360, Other Deferred Credits; when final determination has been made as to the amount to be returned any unrefunded amounts shall be credited to the accounts charged with the cost of such construction. Amounts received for the construction of plant, the ownership of which rests with or will revert to others, shall be credited to the accounts charged with the cost of such construction. (Note also Account ~~7110, Income from Custom Work~~, **7100, Other Operating Income and Expense**.)

(3) When telecommunications plant ordinarily having a service life of more than one year is installed for temporary use in providing telecommunications service, it shall be accounted for in the same manner as plant having a service life of more than one year. ~~This includes temporary installations of plant (such as poles, wire and cable) installed to maintain service during the progress of highway reconstruction or during interruptions due to storms or other casualties, equipment used for training of operators, equipment used to provide intercepting positions in central offices to handle traffic for a short period following extensive system changes and similar installations of property used to provide telecommunications service.~~

(4) The cost of individual items of equipment, ~~classifiable to Accounts 2112, Motor Vehicles; 2113, Aircraft; 2114, Special Purpose Vehicles; 2115, Garage Work Equipment; 2116, Other Work Equipment; 2122, Furniture; 2123, Office Equipment; and 2124, General Purpose Computers,~~ costing \$2,000 or less or having a life less than one year shall be charged to the applicable Plant Specific Operations Expense accounts. If the aggregate investment in the items is relatively large at the time of acquisition, such amounts shall be maintained in an applicable materials and supplies account until the items are used.

(b) ~~Telecommunications plant acquired~~ The accounting for property, plant and equipment is to be recorded at original cost.

~~(1) Property, plant and equipment acquired from an entity, whether or not affiliated with the accounting company, shall be accounted for at original costs, except that property, plant and equipment acquired from a nonaffiliated entity shall be accounted for at acquisition cost if the purchase price is less than \$100,000 for Class A companies or \$25,000 for Class B companies.~~

~~(2) The accounting property plant and equipment is to be recorded at original cost shall be as follows:~~

~~(i) The amount of money paid (or current money value of any consideration other than money exchanged) for the property (together with preliminary expenses incurred in connection with the acquisition) shall be charged to Account 1439, Deferred Charges.~~

~~(ii) The original cost, estimated if not known, of telecommunications plant, governmental franchises and other similar rights acquired shall be charged to the applicable telecommunications plant accounts, Telecommunications Plant Under Construction, and the actual original cost cannot be determined and estimates are used, the company shall be prepared to furnish the Commission with the particulars of such estimates.~~

(1) (iii) Depreciation and amortization of plant acquired shall be credited to Account 3100, Accumulated Depreciation, or Account 3200 Accumulated Depreciation-Held for Future Telecommunications Use, 3400, Accumulated Amortization-Tangible, ~~3410, Accumulated Amortization-Capitalized Leases, 3420, Accumulated Amortization-Leasehold Improvements,~~ 3500, Accumulated Amortization-Intangibles, and 3600, Accumulated Amortization-Other, and debited to Account 1439.

~~(iv) Any amount remaining in Account 1439, applicable to the plant acquired, shall upon completion of the entries provided in paragraphs (b)(2)(i), (ii) and (iii) above, be debited or credited, as applicable to Account 2007, Goodwill or to Account 2005, Telecommunications Plant Adjustment, as appropriate.~~

~~(3) A memorandum record shall be kept showing the amount of contributions in aid of construction applicable to the property acquired as shown by the accounts of the previous owner.~~

~~(4) Companies shall submit to the Commission for consideration and approval copies of journal entries recording acquisition of telecommunications plant covered by this instruction when the consideration paid is \$1,000,000 or greater (Class A companies) and \$250,000 or~~

~~greater (Class B companies). The text of such entries shall give a complete description of the property acquired and the basis upon which the amounts of the entries have been determined.~~

(c) Cost of construction.

(1) Telecommunications plant represents an economic resource which will be used to provide future services, the cost of which will be allocated in a rational and systematic manner to the future periods in which it provides benefits. In accounting for construction costs, the utility shall charge to the telecommunications plant accounts, where applicable, all direct and indirect costs: *Labor, Engineering, Material and Supplies, Transportation, Contract Work, Protection, Privileges, Taxes, Allowance for Funds Used During Construction, and Other Related Costs.*

~~(2) Direct and indirect costs shall include, but not be limited to:~~

~~(i) "Labor" includes the wages and expenses of employees directly engaged in or in direct charge of construction work. It includes expenses directly related to an employee's wages, such as worker's compensation insurance, payroll taxes, benefits and other similar items of expense.~~

~~(ii) "Engineering" includes the portion of the wages and expenses of engineers, draftsmen, inspectors, and their direct supervision applicable to construction work. It includes expenses directly related to an employee's wages, such as worker's compensation insurance, payroll taxes, benefits and other similar items of expense.~~

~~(iii) "Material and supplies" includes the purchase price of material used at the point of free delivery plus the costs of inspection, loading and transportation, and an equitable portion of provisioning expense. In determining the cost of material used, proper allowance shall be made for unused material, for material recovered from temporary structures used in performing the work involved, and for discounts allowed and realized in the purchase of material. This item does not include construction material that is stolen or rendered unusable due to vandalism. Such material should be charged to the applicable plant specific operations expense accounts.~~

~~(iv) "Transportation" includes the cost of transporting employees, material and supplies, tools and other work equipment to and from the physical construction location. It includes amounts paid therefore to other companies or individuals and the cost of using the company's own motor vehicles or other transportation equipment.~~

~~(v) "Contract work" includes amounts paid for work performed under contract or other agreement by other companies, firms or individuals; engineering and supervision applicable to such work; cost incident to the award of contracts; and the inspection of such work. The cost of construction work performed by affiliated companies and other details relating thereto shall be available from the work in progress and supporting records.~~

~~(vi) "Protection" includes the cost of protecting the company's property from fire or other casualties and the cost of preventing damages to others or the property of others.~~

~~(vii) "Privileges, Permits and Rights of way" includes such costs incurred in obtaining these privileges, permits, or rights of way in connection with construction work, such as for use of private property, streets or highways. The cost of such privileges and~~
